

Pre Training Audio Summary

www.UIBCmembers.com

Thank you for coming back to UIBCmembers.com. This is the website for all your pre training needs so you can maximize the impact of the 5 day training experience.

At the top of this page you will see the Course details for both West coast and East coast events as well as the support@UIBChelpdesk.com . You can submit your questions there and we will get back to you via e mail. If you put a phone number we can connect with you by phone.

I'd like to start with a review of Steps 1 – 4:

#1 Listen to the 9 minute audio

- In the Step 1 box listen to the audio player or download the pre training audio
- We have provided a 1 Page overview as well

#2 Purchase a new domain at www.UIBCdomains.com

- If you want to change domain names later you will have the ability to do so
- At this point, pick a domain that is close to your key words and that will support you
- It should have keyword sensitivity
- It is very import to get a domain in order to get started
- We have provided Step by Step screen shots which enables you to refer back and forth like you would with a book
- Only register **ONE** Domain
- It must be registered through UIBCdomain.com, not another registrar in order for everyone to start at the same place.

#3 Register for a PayPal *Premier* Account at www.PayPal.com

- Sign up for a PayPal Premier Account (or upgrade your personal account to a premier account)
- Use the link on the site to start
- This will enable you to take incoming orders on line
- NOTE: if you have a personal account you can only purchase with this type of account, you cannot accept incoming orders.
- We will be working with the Paypal accounts during the event so in order to follow along you will need to have this account already established.
- No Paypal Premier account means you won't have the ability to take orders during the event.

#4 Clear your Calendar for the 2 Pre Training Teleseminars

- The pre trainings will be recorded and posted to the Members site the following day if you are unable to make it.
- Webcast access will be available right before the calls at: www.UIBCmembers.com/webcast
- We will also provide handouts to follow along with so that you can hit the ground running and maintain that same momentum when you get to the event.

#5 Register for:

www.Facebook.com

www.Twitter.com

www.YouTube.com

www.ClickBank.com

www.Gmail.com

- Sign up for these free Internet Marketing sites if you don't already have accounts with them
- Click the link that says "Click Here" to get Step by Step screenshots to register for each
- We ask that you pre register at 8 places (2 we hope that you have already completed with your Domain and Paypal)
- Do this prior to the event as it will waste time at the event and you will fall behind if you don't
- All these sites are designed to help you promote and profit from your website
 - We recommend using the same User Name and Password for as many as possible
 - Note your UN and PW's on a sheet of paper and bring it with you &/or e mail all these logins to yourself at the Gmail account so you have access to it at the event.
- Create Gmail account as your Seminar e mail account; not just for this event but for other events that you may attend. Having web based email access from anyone in the world is critical.

We can't wait for our paths to cross at the upcoming event.
