COURSE DETAILS

ULTIMATE INTERNET BOOT CAMP — July 25-29, 2012 Sheraton Gateway Los Angeles Hotel — Los Angeles, CA

Course Overview

At the *Ultimate Internet Boot Camp* top experts in Internet business will walk you through their proven methodology for making passive income online. Come in with nothing – no product, no experience, and no technology know-how – and leave five days later with the foundation for you to run your own real online business.

Get out from under your dependence on your job or your business that's not working. Create an online system for generating income that you and your family can count on for the rest of your lives.

Here's What to Expect:

- ▶ **A simple-to-understand, proven marketing system.** If you can fill in the blanks in our time-tested templates, you can put this system to work for you.
 - ▶ **Access to the "Multi-Million Dollar Man."** One of your instructors and course developers made \$5 million last year using this exact same methodology. And he makes six figures ... not a year, but a month ... in strictly passive income
 - ▶ **No geek-speak allowed.** Our technology experts aren't geeks. They are teachers first and foremost, who excel at breaking things down into the simplest terms. So you'll learn faster and have fun!
 - ▶ **Internet-savvy coaches at the ready.** They'll be on hand to guide you every step of the way. Like your own personal help desk right at the event.
 - ▶ **Transformation from "Techno-dummy" to "Techno-pro."** Don't let technology scare you. Gain the skills and confidence you need to make money online.
 - ▶ **Open for business.** Live Internet access means you build your business in real-time, so it's ready for you to continue building and growing once you get home.
 - ▶ **Your own repeat button.** You can take the templates and the know-how with you and hit "repeat." Have one Internet business ... or 10!
